(<https://www.eventbrite.com/e/southeastern-minnesota-aviation-celebration-tickets-39525920091>) We need to know how many to plan for. Guests do not need to be aviation orientated, just love a great time.

All the information about this celebration is on the new <http://RSTGA.com> website. Please download a poster from this website and post it wherever people would be interested.

Many pilots remember the main speaker, Andrew Lawler, as an RST line boy, student pilot to pilot and now an F-15E flight instructor. Come listen to his story, and enjoy the evening with friends.

This event is an aviation scholarship fund raiser for local students and vets. Come out and help some deserving native get into the aviation world.

Requesting your favorite aviation pictures. For last year's GA celebration Cirrus provided their full-size SR22 mockup. We were unable to find any aircraft that would go through the small doors at the Event Center, so we plan to have a slide presentation of our favorite aviation pictures. Please send your electronic (.jpg) copies to Dave Nelson Dave.T.Nelson@gmail.com

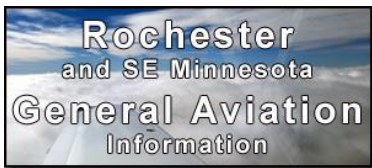

The January IMC Club meeting will be at the Rochester airport's Great Planes Aviation office on January 10th at 1900L (2nd Wednesday of each month). Potential discussions topics will be: Who's logging the time, Stabilized approaches, a pilot's predicament while flying to Alaska, and more if there is still time. You can make things easier for me by [registering](#) before the meeting. More information on IMC Club is at <http://eaa100.44rf.com/imcclub/imcclub.htm>. everything we didn't know about the A-12 and SR-71. This will be a very interesting program. Come out and hear the story. As an appetizer you can go [here](#) to read some fun stuff. Be sure to also click on the "initial design specifications" that Kelly Johnson wrote on a legal pad. This is going to be a great program! Cancellations will be posted on the EAA100.org website.

New SE MN General Aviation Website. This website – <http://RSTGA.com> – will attempt to keep area pilots informed on local general aviation happenings. Please help me keep it up-to-date.
