EAA Chapter 100 is a nonprofit association involved in the promotion of aviation through adult and youth education, hands-on training, building and maintenance of experimental aircraft, and through community awareness programs.

This publication by EAA Chapter 100, Inc. is for the use, education and occasional enjoyment of its members and others. No claim is made for the accuracy or applicability of information herein. Editorial content is the opinion of the contributor not necessarily the position of either EAA Chapter 100 or the Experimental Aircraft Association.

Reader submissions and comments are strongly encouraged.

## June Meeting

– Dwayne Hora

### Reminders:

Next Chapter meeting is on Saturday, June 11 at 9 am

EAA Chapter 100 Father's Day Pancake Breakfast is on Sunday, June 19, 2022:

- Meet at 8 am on Saturday, June 18 for work party to set up hangar
- Plan on starting at 6 am on Sunday
- Need lots of volunteers on Sunday

Here is the 6-11-2022 regular meeting Agenda:

- Pledge of Allegiance
- Welcome Visitors
- Reports | As available
- \* Secretary's Report
- \* Treasurer's Report
- \* Committee Reports
- Hangar
- Breakfast
- Flight Advisor/Tech Counselor
- Old Business
- \* Young Eagles
- \* Other
- New Business
- Project /Flying Reports
- Adjourn

Thanks,

Dwayne

EAA Chapter 100  
President

## Other EAA Chapter Events

-- Dwayne Hora

An email from EAA Chapter 72 announcing a raffle for a Rans aircraft.

Dwayne

----- Forwarded message -----

From: <[jdsteward75@gmail.com](mailto:jdsteward75@gmail.com)>

Date: Mon, May 2, 2022, 22:20

Subject: EAA Chapter 72 Raffle. Help Requested!

To: <[president@eaa100.org](mailto:president@eaa100.org)>

Dear Fellow Presidents,

My name is Jim Steward and I am the President of EAA Bruce McCombs Chapter 72 in Falcon, Colorado. We were gifted a nearly complete and professionally built RANS S-19 with a factory new Rotax engine and propeller still in the box. Chapter 72 members completed the project and it is scheduled to be painted in June. We have elected to raffle this incredible airplane off. The proceeds of the raffle will be used to offer scholarships to future pilots and mechanics. In addition, we hope to acquire a new simulator in which to help these future pilots with additional training and at the same time provide a resource for other local pilots. Our goal is to sell 2500 tickets at \$100.00 each by the drawing date of December 17th 2022.

Would you please consider forwarding the attached flyer to your chapter membership and inserting it in your

newsletter? The website for the raffle is [www.eaa72raffle.org](http://www.eaa72raffle.org) where you can find more information, official rules and purchase tickets. This would be a huge favor to me and the chapter. Hopefully, we may be able to repay this favor in the future.

Thanks so much for your consideration.

Attached please find some additional information for your use.

Jim Steward  
President, EAA Bruce McCombs Chapter 72

## Secretary Comments

-- Jeff Hanson

### EAA Chapter 100

#### Chapter 100 meetings

Here are the minutes from the May meeting:

- 11 members were present.
- There were 3 fly-ins.
- Hangar discussion.
- Pancake breakfast discussion. Looks like everything is on track at this point.

It was a beautiful day and a nice flight over but the wind was steadily increasing throughout the meeting and swinging around to the West so, an early departure was on deck for myself.

Respectfully submitted,

Jeff Hanson

Chapter Secretary

## Students surprised with summer internships

-- General Aviation News Staff

**Editor:** By General Aviation News Staff · May 28, 2022  
You can click [here](#) to see the entire article in General Aviation News.

DALLAS — Aviation students from [Hampton University](#) in Virginia were recently surprised with paid summer internship at the JSX headquarters in Dallas.

[JSX](#), a hop-on jet service that offers flights between a variety of airports, including some general aviation airports, offered eight students who were identified by university officials as the “best of the best” the internships during a roundtable discussion presented by [Watch The Yard](#), an online media company specializing in the black college experience.

After completing a roundtable discussion with actors Jay Ellis and Greg Tarzan Davis from the new “Top Gun: Maverick” movie, the students were asked to “gear up” for being “the best of the best” in the future of aviation, where JSX Chief Corporate Soul Officer Kevin Horan announced the paid internship opportunity to the surprise of the future aviators. Video from the roundtable discussion can be [seen here](#).

As part of the internship program, the company will pay

## Newsletter Editor

-- Art Howard

Since the last newsletter, the annual on my aircraft, Piper Cherokee N5438W, has been completed. Yea!

It seems the long cold spring has come to an end. Now we have thunderstorms in the forecast and the weather has really warmed up! I put the long extension cord away that kept the Tanis heater working on the engine. The engine cover has been put away until this fall when the temperature again turns cold. I am certainly looking forward to summer flying.

I flew to Buffalo Municipal Airport (KFCE) on both Friday and Saturday, May 20 and 21, to attend the GMAG (Great Minnesota Aviation Gathering). There were some excellent programs and seminars. Three seminars had Wings credit. One of the seminars was for Seaplane Ground School. I now have an endorsement in my log-book for Seaplane Ground School! Just maybe I can get a seaplane rating? Who knows. The thought is there!

With the warmer weather, I now see Ultralights flying around the Red Wing Airport. It is nice to see this activity. With the cost of fuel these days, just getting into the air with a flying machine that uses less fuel is very nice. Maybe it is time to read the POH for your aircraft and keep the mixture lean in flight to keep the fuel consumption per hour at a lower level. It will keep more of your fuel budget available for that next flight you have planned.

I flew to Oshkosh on Saturday, June 4, 2022 for an Admissions Chairman meeting. There are changes in the admissions area again this year. Credit card processing has changed. There will now be an external credit card reader that the customer will use. Signatures are no longer required. EAA Express Arrival is back for the 2nd year, where the EAA member can have their wristbands mailed to them ahead of time. No need to visit the admission's building! Thus far, approximately 55% of purchases have opted into this option. But a majority of advance purchased typically occur in July and won't qualify for Express Arrival.

*(Continued on page 6)*

*(Continued from page 3) - Students surprised with summer internships*

for students to receive flight simulator time from Rick's Aviation and Prevailance Aerospace to help them achieve their dreams of flying professionally.

Company officials added the program will continue, with a total of 18 students through 2026.

Hampton University is one of five historically black colleges with a university-level aviation program. Hampton University's department of aviation, established in 1985, offers bachelor's degree programs in air traffic control, aviation management, airport administration, and flight education, as well as a minor in aviation management.

### Another Top Gun Airplane

To commemorate the release of the long anticipated "Top Gun: Maverick" Paramount Pictures commissioned a custom-wrapped JSX aircraft, which is making the rounds this spring, popping up in 16 markets across California, the Midwest, and elsewhere.

In early May 2022, the cast and VIP guests of the new film were flown on a series of special flights from Bob Hope Airport ([KBUR](#)) in Burbank, California, to San Diego International Airport ([KSAN](#)) with retired Navy pilots Commander Chris "Chilly" Swilley, Commander Bryan "Dionne" Worswik (JSX Standards Training Captain), and Coast Guard Lieutenant Commander Robert "Spud" Boyle (JSX Chief Pilot).

The new [Top Gun movie](#) opened in theaters May 27, 2022.

## Items for Sale

*Editor:* Please send me a description and photo, if you have one, and I will place your for sale item here.

\*\*\*\*\*

*(Continued from page 5) — Newsletter Editor*

There will be a larger military presence this year. Every major command will be represented with their aircraft. Ford will no longer be a major sponsor so their area is being taken over by Boeing. Ford will be missed.

If you plan to fly into AirVenture, there is an EAA Webinar being held on Wed, Jun. 22, 2022, from 7 - 8:30 p.m. CDT. It is called **Tips for Flying Into EAA AirVenture 2022**. Click [here](#) to register.

And another reminder, we need volunteers for our Father's Day Pancake Breakfast. Hope to see you there.

Please send articles and pictures to me at [alhowar@attglobal.net](mailto:alhowar@attglobal.net). See you around the airport.

## EAA Young Eagles Pilot Requirements

-- EAA

*Editor:* This is from the EAA Young Eagles **Pilot Guidelines** brochure: **Pilot Requirements**

The Young Eagles pilot requirements are basic, but **MUST** be followed.

- ◆ Be a current EAA® member and hold an appropriate airman's certificate (sport pilot or greater)
- ◆ Possess a current medical certificate (if applicable)
- ◆ Be current to carry passengers in the aircraft you plan to use
- ◆ Have a current flight review
- ◆ Complete the Young Eagles registration form before the flight, including parent or legal guardian signature, and pilot signature
- ◆ Conduct flights in an aircraft that is in airworthy condition
- ◆ Have aircraft passenger liability insurance for the aircraft used (owned, rented, or borrowed)
- ◆ Adhere to all applicable Federal Air Rules (FARs)
- ◆ Complete both the online training and basic background check as a part of EAA's Youth Protection Policy. For more information, visit [EAA.org/YouthProtection](http://EAA.org/YouthProtection).

*Editor:* Make sure you are current to fly Young Eagles at the EAA Chapter 100 Young Eagles events.
